### SUMMARY

A highly motivated and aspiring MERN stack developer with experience in developing and deploying scalable web applications. Proficient in both front-end and back-end technologies, and passionate about delivering reliable solutions for businesses. Fresh graduate with hands-on experience through academic projects and internships, eager to contribute to a dynamic development team.

### PROJECTS

#### Make My Trip-Backend

- Developed a robust backend system using Node.js.
- Implemented functionalities for booking management, user authentication, and payment processing.
- Designed RESTful APIs to handle various operations efficiently.
- Ensured data integrity and security using MongoDB for storage.
- Integrated third-party services for enhanced features and scalability.

#### Job Portal

- Developed "JobNest" using the MERN stack.
- Created an intuitive platform for users to apply for jobs.
- Designed a responsive, user-friendly interface.
- Integrated RESTful APIs for seamless front-end and back-end communication.
- Managed a MongoDB database for user and job information.

#### Pomodaro App

- Developed a productivity-enhancing Pomodoro timer app.
- Implemented customizable work and break durations.
- Designed an intuitive, minimalist user interface.
- Ensured offline functionality for uninterrupted use.
